## **PROCEDURE OF THE HOLDERNESS TOWN MEETING - MARCH 6, 1973**

At a legal meeting of the Inhabitants of the Town of Holderness, Qualified to vote in town affairs, and held in the Town House of said Holderness, March 6, 1973, at ten o'clock in the forenoon, the following business was transacted.

The Ballot Clerks being in position, the meeting was called to order by the Moderator Laurence H. Roberts at 10:01 A. M. The Town Warrant was read by the moderator. The School Warrant was read by Moderator Laurence H. Roberts.

The polls were declared open for Article 1 at 10:14 A. M. and were declared closed at 6:17 P. M. Count of town and school ballots was made with the following results:

Total Ballots cast - 390                      Names on checklist - 776

Town Clerk — Gertrude Elsner  
Town Treasurer — Richard Gordon  
Selectman for 3 years — Steven Harrison  
Tax Collector — Bernice Shields  
Library Trustee for 3 years — Laura Heath  
Overseer of Town Welfare — Laura Heath  
Superintendent of Cemeteries — Walter Greenleaf  
Trustee of Trust Funds for 3 years — Eleanor S. Wolf  
Fire Wards — James Cripps, George Richards, Paul Whitman  
Constable — Lyle Thompson

### **FOR SCHOOL DISTRICT**

Total Ballots cast - 390

Moderator — Laurence H. Roberts Jr.  
Clerk — Ann Noyes  
Treasurer — Joseph Carvelli  
Member of School Board for 3 years — Barbara Currier

The opening of the town meeting was delayed to permit completion of ballot count.

Business meeting was opened at 7:50 p. m. by the Moderator. Mr. M. E. McLoud called Mrs. Corinne Cripps to the stage and presented her with a plaque as a token by the town of appreciation for her nine years as Town Clerk.

Results of the School District voting were read by Mr. Roberts, and the results of the town balloting were read by him also. Mr. Roberts then requested a moment of silence out of respect for the memory of George Plant.

Article 3. It was moved and seconded to amend Article 3 by an additional raise of 10% of the \$401.50 given as compensation to Ethel Piper for services rendered to the town. Voted in the affirmative.

Article 4. Moved and seconded to raise and appropriate \$50.00 for the New Hampshire Humane Society. Voted in the affirmative.

Article 5. Moved and seconded to raise and appropriate the sum of \$500.00 for the Sceva Speare Memorial Hospital. Voted in the affirmative.

Article 6. Moved and seconded that the town vote to establish a Capital Reserve Fund to finance the cost of construction of a new town office building and furnishings and equipment for same and to transfer to said Fund the sum of \$25,000 from the Federal Revenue Sharing Trust Fund received and to be received. Motion amended to read "to finance the cost of providing town office facilities" instead of "to finance cost of construction". Amended article voted in the affirmative.

Article 7. Article declared out of order. Mr. Hopkins stated that since Holderness had adopted the Municipal Budget Act a special town meeting would be required to consider this article.

Article 8. Moved and seconded to amend the July 15, 1967 Septic Tank Ordinance by adding provision that "holding tanks or closed systems will not be approved for any construction and will be approved only as a replacement for an existing system when no other means of disposal is practical in the judgment of the Town Health Office. Motion amended as follows: "holding tanks or closed systems will not be approved for any new construction" etc. Amended article was voted in the affirmative.

Article 9. Moved and seconded that the town raise and appropriate the sum of \$3,000. for improvements to the town library. Voted in the affirmative.

Article 10. Moved and seconded that the Pease property located on Beede Road be designated as a town forest. Voted in the affirmative.

Article 11. Moved and seconded to see what action the town would take concerning the designation of any town road as "scenic". Motion to table article was voted in the affirmative.

Article 12. Moved and seconded that the sum of \$891 be raised and appropriated for the support of the Pemi-Baker Home Health Agency. Such amount included in the budget under health services. Voted in the affirmative.

Article 13. Moved and seconded that the town raise and appropriate the sum of \$26,500.00 for the purchase of a new grader for the Highway Department. Voted in the affirmative.

Article 14. Moved and seconded that the town authorize the Selectmen to borrow in anticipation of taxes. Voted in the affirmative.

Article 15. Moved and seconded that the town authorize the Selectmen to convey any real estate obtained by tax collector's deed and execute any deed or deeds thereof in the name of the town. Voted in the affirmative.

Article 16. Moved and seconded to accept the budget as recommended with the following amendments:

Fire Dept. From \$8,536.00 to \$10,536.00

Planning Board from 1.00 to 1,290.00

Ethel Piper Fund \$401.50 to 441.65

Voted by ballot — 102 ballots cast. 93 affirmative. 9 negative. Two-thirds majority received. Article passed.

Article 17. Moved and seconded the Town give thanks to Merlond McLoud for his years of service. Moderator gave thanks to Mr. Flint for acting as police officer. Moved and seconded meeting be adjourned, Motion carried. Moderator requested town clerk to write letter to Mrs. Plant from the Town memorializing George Plant. Moved and seconded. Motion carried.

A True Record: Attest

Gertrude L. Elsner  
Holderness Town Clerk

### **HOLDERNESS TOWN WARRANT - 1974**

TO THE INHABITANTS OF THE TOWN OF HOLDERNESS IN THE COUNTY OF GRAFTON AND STATE OF NEW HAMPSHIRE, QUALIFIED TO VOTE IN TOWN AFFAIRS:

You are hereby notified to meet at the Town House in said Holderness on Tuesday, the fifth day of March, next, at ten o'clock in the forenoon, at which time the polls shall be opened and shall close not earlier than six o'clock in the afternoon, to act upon the following subjects, the second and subsequent articles to be acted upon commencing at seven-thirty o'clock in the afternoon of the same day:

ARTICLE 1: To choose all necessary town officers.

ARTICLE 2: To accept the reports of all town officers.

ARTICLE 3: To see if the Town will vote to raise and appropriate the sum of \$100.00 for the support of the New Hampshire Humane Society.

ARTICLE 4: To see if the Town will vote to raise and appropriate the sum of \$500.00 for the support of the Sceva Speare Memorial Hospital.

ARTICLE 5: To see if the Town will vote to raise and appropriate the sum of \$1,000.00 for the support of the Pemi-Baker Home Health Agency.

ARTICLE 6: To see if the Town will vote to adopt the provisions of R. S. A. 55:9-a and R. S. A. 55:9-b which authorizes the Town Clerk to add names to the checklist and to present such names to the supervisors of the checklist.

ARTICLE 7: To see if the Town will vote to accept as a gift from the Squam Lakes Science Center, a deed of one acre of land on Route #3 to be used as a site for a new town office building only, said deed to contain a reservation to said Science Center of the wood from all trees cut having a diameter in excess of six inches and a restriction which would

require the parking lot to be constructed behind the building, and to see if the Town will vote to appropriate a sum not to exceed \$80,000.00 to construct, furnish and equip a new town office building on said site, said sum to be raised in part by withdrawing all funds on deposit in the Capital Reserve Fund established pursuant to an affirmative vote on Article 6 of the warrant for the 1973 Town Meeting and all interest accrued thereon, and the balance to be raised by borrowing on the credit of the Town through the issuance of a note or notes of the Town pursuant to the Municipal Finance Act, R. S. A. 33:8, said note or notes to be repaid, so far as possible, out of such funds as shall be received by the Town from the Federal Revenue Sharing Trust Fund under the State and Local Assistance Act of 1972.

ARTICLE 8: To see if the Town will vote to appropriate the sum of \$16,000.00 for the purchase of a new town truck and sander and to make alterations to the existing truck to enable the Town to plow snow on all town roads, said sum to be raised from current taxes.

ARTICLE 9: To see if the Town will vote to appropriate the sum of \$18,000.00 for necessary repairs and improvements to preserve the old Town Hall, said sum to be raised by borrowing on the credit of the Town through the issuance of a note or notes of the Town under the Municipal Finance Act, R. S. A. 33:8.

ARTICLE 10: To see if the Town will vote to raise and appropriate the sum of \$1,900.00 to complete the renovation of the Town Library.

ARTICLE 11: To see if the Town will vote to authorize the Selectmen to apply for, contract for and accept on behalf of the Town such financial aid as the Town may now be entitled to receive or hereafter become entitled to receive from the Federal Disaster Assistance Administration.

ARTICLE 12: To see if the Town will vote to authorize the Town Treasurer to transfer to the Town Conservation Trust Fund the unexpended balance of the funds appropriated for the Conservation Commission in 1974.

ARTICLE 13: To see if the Town will vote to authorize the Selectmen to investigate a program to provide a Town Tax Map, such program to be presented to the voters for approval at a later date.

ARTICLE 14: To see if the Town will vote to authorize the Selectmen to borrow in anticipation of taxes.

ARTICLE 15: To see if the Town will vote to authorize the Selectmen to administer, lease, rent, sell and convey or otherwise dispose of any real estate acquired by the Town by any Tax Collector's deed.

ARTICLE 16: To see if the Town will vote to make any alterations in the amount of money required to be raised and appropriated for the ensuing year for the support of the Town, as recommended by the Budget Committee in its report; to raise and appropriate all sums so determined, and to pass on any other vote relating thereto.

ARTICLE 17: To transact any other business that may legally come before the meeting.

Given under our hands this 6th day of February, in the year of our Lord nineteen hundred and seventy-four.

\*N.B. Presence of this figure does not imply a willful acceptance and its appearance is due to advice of Town Counsel, who states that it is the obligation of the Budget Committee to permit the voters to act on the question.

It should be further noted that the Budget Committee disapproves of an expenditure of this magnitude for this purpose.

## THE FLOODS OF 1973

It is no doubt true that not a person living in Holderness during the floods of June and July escaped without some loss or misfortune. To those more fortunate, their loss might have been total isolation from the community for a few days. To many, however, their loss was their home, or their property, or their business, or their livelihood. It is not the purpose of this report to recall to mind the events of those tragic days, for those who have lived through it. But rather as a historical record, to be read by some future generation perhaps twenty-five or fifty years from now.

For several days in the last week of June there was heavy and constant rainfall, and on Saturday June 30th, the Pemigewasset River overflowed its banks. Thirty seven families on River Street evacuated their homes, and eight business establishments in the Intervale were flooded. The high water mark was about half way up the hill on Route 175 towards Holderness School. At six P.M. a disaster area was declared. The National Guard, State Police, and Red Cross came to the assistance of the town.

SUNOCO

CHEV OLDS PONTIAC

WASH

37

SOUTH

23

SUNOCO

STREET

On Sunday, July 1, a fleet of a dozen trucks, three loaders, and a dozer started emergency measures to open up washed out roads and relieve isolated families. The selectmen talked with the Governor, who advised the Town to proceed with road work immediately, regardless of cost. The police were patrolling the area in boats, the Civil Defense were caring for homeless families.

On Monday the waters started to recede. The fire department moved in to pump out cellars and hose down walls; the health officer examined flooded wells for contamination to drinking water. The selectmen met with the Governor in Concord.

On Tuesday July 3 families started moving back into their homes, without drinking water. The Army Corps of Engineers toured our roads to assess damage. All roads were by then open on a temporary basis.

On Wednesday July 4th it rained again, with 7.5 inches rainfall in four hours, and with two more inches on July 5th, all Hell broke loose all over town. Every stream, brook, gully and drainage ditch overflowed its banks, leaving ten foot holes in dirt roads, undermining paved roads, washing out culverts. The Town was literally shut down. Emergency repairs that had been made to roads in the last few days were washed away.

On July 6th, President Nixon declared this a disaster area, and federal and state engineers moved in to assess damage. Every road was travelled by them, many on foot, and an estimated \$70,000 damage was recorded, on Town roads. Unfortunately the Federal Disaster Program does not cover damage to private properties. The expense to townspeople in restoring their private roads, repairing buildings, removing debris, totaled many more thousands of dollars.

Any list of people to whom the Town owes a vote of gratitude for restoring order out of chaos is difficult, for fear of neglecting someone. But though their names may not appear here, the townspeople know well their efforts and devotion. For exceptional duty, several names should be mentioned. Police Chief Wayne Frizzell and his Special Officers; Fire Chief Kip Hawkins and his entire fire department; Health Officer Charles Currier; Civil Defense Director Paul Whitman.

Town Road agent Lyle Thompson and his able crew worked around the clock following the first flood to get people out of their homes, then saw all his efforts "washed away" by the July 4th flood. Again, 24 hour a day labor for several days opened up all town roads. But his disaster work for the Town has continued from the time of the floods through the last week in the year, making permanent repairs, keeping a record of every load of gravel, sand, cold patch, and stones used; a record of every culvert replaced; a record of operating time for all equipment. All this is required by the federal agents, as a basis for compensation to the town for its losses. By the end of the year, the Town has received \$37,000 from the Disaster Assistance Administration, with a similar amount due in the spring after inspection of the work. Credit should also go to Donald Dana, who volunteered to assist Lyle in these bookkeeping chores, and who spent many many hours on this difficult task.

And so by the end of the year the Town is back to normal. Many unfortunate residents and taxpayers are still making repairs. And to compound their misery, another flood of the river on December 6th and 7th added further damage to homes and businesses in the Intervale. The damage to property owners was again very high, the damage to town roads was about \$5,000, which will probably be recovered from the Federal Disaster Relief Administration.

Serious thought must be given to a program to protect the safety of the inhabitants of the Pemigewasset River Flood Plain as determined by the US Army Corps of Engineers, and the Protection of their property. Such a program has already been submitted to the selectmen for their future consideration.

#### HOLDERNESS LIBRARIAN'S REPORT

We are very grateful for the sincere interest and concern many have for the HOLDERNESS TOWN LIBRARY. The teachers are most cooperative and the taxpayers support our activities with both funds and good will.

We believe a major responsibility of the library is to remind men and women that there are many ways in which books can help serve their personal needs and help them to keep up with the rapidly changing world.

The future, some say, belongs to today's children—the future also belongs to the immediate generation of adults whose attitudes and decisions are determining the future, today.

It is good news that more people are making use of the library. We want to be open, adequately staffed, to be available to everyone in the community at convenient times.

Lucille M. Hall, Librarian

## SIXTH ANNUAL REPORT OF THE HOLDERNESS CONSERVATION COMMISSION

During 1973 the Holderness Conservation Commission assisted the town in moving closer to solutions for several key problems; solid waste disposal (dump), lake pollution, sewage disposal and other areas of growing concern.

The commission heartily agrees with an advertisement for Holderness in the "Where To In The Lakes Region" booklet. It says tourists and visitors are welcome to our town but that they should be mindful of our precious natural heritage upon which our economy and well-being depends. Many more residents are coming to realize this simple rule.

In preparation for last year's town meeting the commission had a 50 acre parcel of tax-acquired land on the Beede Road surveyed. Subsequently the voters approved designation of this land as a town forest. Since town meeting the Grafton County and State Foresters have cruised the new forest noting timber types, special natural and manmade features. Holderness Central School students and the Boy Scouts have begun to put the town forest to good use. The commission would now like to acquire a right-of-way access across private lands so students may walk to the forest during school hours eliminating the need for a bus.

At the end of 1973 the commission discussed the possibility of allowing residents to cut needed firewood on the town forest in view of the energy crisis. But no program has yet been worked out. It is Top priority in 1974!

All fieldwork for mapping the soils of Holderness has been completed by the U. S. Soil Conservation Service. A cooperative agreement between the Lakes Region Planning Commission, U. S. Government, Holderness Planning Board and Conservation Commission, financed the project. Soils maps have almost unlimited uses for everything from septic tank location to locating wetlands.

The commission has worked on occasion with the town's health officer and would like to commend Charles Currier's continuing efforts to prevent more serious pollution in Squam Lake and elsewhere.

Under a new state law (RSA 483-A supp) the commission now reviews all proposals to fill or dredge in the town's wetlands. If there is enough local interest, the commission has the right to stop any action by the state for 30 days and call a local hearing. In 1973 only nine such applications to dredge or fill were received and the commission chose not to intervene in any of them.

Each March the commission agrees to put on an evening's program for the Pemigewasset Valley Fish and Game Club's annual meeting. In exchange the club pays the \$50. tuition for sending one Holderness youth to Spruce Pond Conservation Camp in Allenstown. Last June, Jane Sargent ably represented the town as the fifth camper to attend under the commission's auspices. We plan to repeat it again this year with Bill Biddle still serving as chairman of the "finding" subcommittee.

The commission has made \$283.91 from recycling glass. This money is placed in the Town Conservation Trust Fund. Commissioner Al Bushnell, although not alone in this continuing reclamation effort, deserves the lion's share of the credit. He just keeps going on and on! We have learned that Nottingham (N. H.), population 1200, now has a manned, fulltime recycling depot which will make \$40,000 a year or more for the town. Their Local ordinance requires homemakers to separate all trash at home. Could Holderness ever accomplish something like this?

At our December 17 meeting representatives of local snowmobiling clubs appeared to help us formulate ground rules for the use of snowmachines on the town forest.

With the energy crisis bearing down upon us at the close of 1973, the commission spearheaded formation of an Energy Subcommittee which did little more than meet only twice to discuss what could be done at the town level. Emergency fuel allocation forms were distributed to the selectmen and police chief. If the situation worsens locally we can always call the subcommittee back into session. So far only one family has run out of heating oil.

Respectfully submitted,

Richard L. Currier  
James Cripps  
Hollis Willoughby  
Derwood Corbett  
Almon Bushnell  
Malcolm "Tink" Taylor, Chairman

## **ANNUAL REPORT OF THE HOLDERNESS PLANNING BOARD-1973**

The Holderness Planning Board has experienced another busy year, that of 1973, which they feel quite sure has been a very fruitful one for the Town of Holderness. Fourteen individual business meetings were held, plus one other meeting that had been scheduled, but which lacked a quorum, hence no official action on any matter could be taken. However, the three members who did brave the inclement weather reviewed and discussed several plans that were currently pending before the Board. All but one of the fourteen Planning Board meetings were double session affairs, First there would be Public hearings on Subdivisions seeking Planning Board approval, required for all subdivisions large or small, by State Law, Article 36, Section 23 of the N.H. Planning Enabling Legislation. The Public Hearings were all followed by business meetings, when reports were given, subdivision plans presented, maps studied, and matters pertinent to them were discussed. During the year 1973 34 plats or plans were presented for Planning Board consideration, twenty-one of these have been approved. Most of the twelve others are either still pending, or have not yet been "followed thru" by the subdivider.

In addition to the regular Planning Board meetings, some member or members of the Board endeavor to visit subdivision sites whenever feasible and possible, to gain on-site knowledge of the location and nature of the land being subdivided. This occurs sometimes not under the best of weather conditions. On one occasion last May four members of the Board, one of whom was a Selectman, together with an official and an engineer from the Water Supply & Pollution Control Commission traversed over a 30 acre plot having steep brush covered slopes, deep valleys and small streams, for about three hours one morning during a heavy drizzle. What water did not fall upon us from above was met on all sides as we traveled thru the dripping wet foliage. Most such pilgrimages are less arduous and less wet.

As has been stated on previous reports, the subdividers, with but rare exceptions, are desirous of cooperating with state and local requirements, once they learn what they are, and some of the reasons for them realizing that their subdivision, and the homes that will later be constructed, will benefit through such planned development.

Holderness, unlike most towns in the Lakes Region, have only subdivision regulations to guide its future growth and development and to conserve its natural resources and to prevent pollution of its land & waters. There is need for additional measures to further guide and control future growth and development, and one knows not when such measures may be urgently needed. Hence Holderness should be prepared. The recent State Legislature passed House Bill 851, which the governor signed and which became effective last August 31st, that provided for "an emergency temporary zoning and planning ordinance". The Planning Board is giving this ordinance some study and some consideration.

This ordinance contains many measures that could be very beneficial to Holderness. Under this ordinance the Town would not be zoned or divided. The entire town would remain residential and agricultural, in which certain business, commercial and industrial enterprises would be permitted. The bill provides a series of measures that the Town could adopt, when so voted by the citizens of the town, and be utilized on a trial basis, for a two year period, or until two Annual Town Meetings have been held, or until the town may have considered and adopted specific measures of their own. If, at the end of the two year period the town needed more time to consider these or other ordinances of their own, the town may vote to utilize the temporary measure for **just one more year**, after which time this emergency temporary ordinance becomes null & void.

A town cannot utilize this specific measure beyond this trial period. However, in the interim this temporary ordinance would give the citizens an opportunity to see how such an ordinance works, to see what measures prove beneficial, and which might be deleted, and what measures should be added, or to return to their previous situation.

This is a measure that the citizens of Holderness would do well to study, discuss, and if thought to be of value, could adopt as a trial protective ordinance. Members of the Planning Board would be glad to meet with any group or organization to discuss, explain and clarify the several aspects of this emergency temporary ordinance.

This is a measure that the citizens of Holderness would do well to study, discuss, and if thought to be of value, could adopt as a trial protective ordinance. Members of the Planning Board would be glad to meet with any group or organization to discuss, explain and clarify the several aspects of this emergency temporary ordinance.

A year ago the Town Report indicated that the Holderness Planning Board expenses had exceeded the appropriation that was voted for planning use. This was not so, and is not so for the current year. Because of the nature of the Planning Board services, its financial "affairs" are kept as two individual accountings.

#1. . Those expenses which have to do with routine planning board operating business, and which is naturally charged against the appropriation voted for such expenses at the previous Town Meeting. The amount appropriated at the 1973 Town Meeting for routine Planning Board expenses was \$150. The expenses, for want of a better name, called "routine planning board expenses" from January 1st to December 24th, 1973 was \$133.07, leaving the amount of \$16.93 **below** the appropriation.

#2. are those expenses which are directly attributed to the implementation or administration of the Subdivision Regulations. Land subdividers and/or developers pay a fee which is called an "Application for Subdivision Approval Fee". The purpose of this fee is to assure that the subdivider or developer shall pay for the expenses incurred in the processing of the subdivision regulation, and expenses incidental to them, such as legal advise, and not the town. These fees, and any moneys received from the sale of the town's Subdivision Regulation booklets (75c ea) are sent to the Town Treasurer, and go into the General Funds of the town. Hence any expenses incurred through such subdivision administration procedures should be charged against this income which the town receives. These espenses are often considerable. They cover the cost of conducting and publicizing public hearings for all subdivision. large or small, as required by State Law, Article 36, Section 23. Notices must be sent by certified mail, and certified mail with return receipt (at a cost of between 38 and 53 cents each) to the individuals involved, and all abutting land owners. There is also the cost of fabricating notices for posting & mailing, photocopying, duplication of notices & data pertaining to conditions and provisions applicable to the plat or plan. Such expenses incurred from January 1st through December 24th, 1973 were \$149.49. The income or amount received and sent to the Town Treasurer totalled \$295.--thus giving the Town of Holderness a **profit** of \$146.51.

Because the Planning Board does not have a checking account or "on hand moneys" from which to pay current expenses in either accountings #1 and #2, the Chairman of the Planning Board pays (out of his pocket) these expenses, which may be less than a dollar or \$3 or \$5 every week or two as they occur. Twice a year, July 1st and late in December separate detailed statements of the two accountings are sent to the Selectmen, and the Planning Board chairman is reimbursed by a single check for the moneys that have been expended for the six month period.

The Holderness Planning Board wishes to take this opportunity to express its appreciation to the Squam Lakes Science Center for making available facilities for holding the Planning Board meetings. Likewise it might be said that the Planning Board has eight members rather than seven from the standpoint of services rendered. Mrs. Staples types (when she can decipher the Doctor's long hand writing) from twenty to thirty letters and notices per month, many of these may be of several pages. Much of this correspondence is sent to a number of individuals, hence requires duplication through photocopying. After five years of such services, and these are on the increase, the Planning Board Chairman offers a public "thank you" to Mrs. S.

Earlier in this report some mention was made of the towns in the Lakes Region, which brings to mind that the remainder of this report should relate some of the activities of the Lakes Region Planning Commission, of which Holderness is one of the 20+ member towns. Mr. Laurence Flint and Dr. Lawrence Staples, Holderness Planning Board Chairmen have served as the representatives from the Town of Holderness on the Commission.

The Lakes Region Planning Commission holds regular monthly business meetings, with additional gatherings for members of the various committees and officials from the several member towns. The meetings are held in the various towns in the region, which necessitates the traveling of considerable distances for many members to some of the outer-lying towns.

Many of the L. R. P. C. activities are long range programs, involving collectively the various towns in the Lakes Region. Other activities have had to do with problems of the

individual towns, or groups of towns. Most of the individual towns in the region have received assistance with one or more local problems and projects. It might well be said that the Lakes Region Planning Commission office, more specifically its office personnel, has become a library and a storehouse of knowledge gained through experience where information, advice and assistance with planning problems are made available individually and collectively to its member towns.

This past year several surveys, tests & recordings were conducted in several areas of Lake Winnepesaukee, at different depth levels. This coming year similar surveys will begin in the Squam Lakes Watershed. This also is a long range project, and will continue into and probably beyond the year 1975, and the Selectmen in the several towns bordering the lakes have been asked to select a group of five interested individual citizens to assist in the project.

Space will not permit a recital of the many activities of the Commission, and a natural question in the minds of many probably is, How has Holderness benefited by being a member of the Lakes Region Planning Commission?

Due to its regional status the Commission is able to obtain certain Federal Grants for certain of its major projects, funds which are not available to individual towns. One of these was a Solid Waste Disposal Survey for some fifteen towns in the Lakes Region, which included Holderness. This included a study & survey and consideration of certain land areas in the various towns for possible sanitary land fill sites, and surprising as it may seem, sufficient land areas of 20-25 acres with suitable soil depth and type for sanitary waste disposal is difficult to find, and in certain towns appears to be non-existent. The study included a population survey and the possible growth which was likely to occur in the next ten, fifteen and twenty years. It also included the amount of solid waste tonnage as of today, during the summer peak vacation season, and what this tonnage was likely to be one and two decades hence. This Solid Waste Survey was conducted by the engineering concern of Metcalf and Eddy, and the near final report indicates the study to be one of the most comprehensive of its kind ever to be made. Factors involved, figures and methods have been enumerated at several levels. #1, the probable cost to a town if it chooses to "go it alone" and have its own solid waste disposal site, #2, participation with one, two or more other towns with but one of the towns having the disposal site.

What are some of the expenses involved in a Sanitary Land Fill Project? It might be noted here that a sanitary land fill is the most economical method for any community, except perhaps a large city. Incineration, which some towns have tried, has not proved successful, and as of today is exceedingly expensive.

For the sanitary land fill the #1 cost is an examination and investigation of land for a suitable site, and if and when found there is the purchase of 20-25 acres of land, the cost of which depends on land values in the area. #2 is the purchase or rental of equipment for operation, #3, personnel to use the equipment and care for the site, #4 buildings to house and protect the equipment, #5, available water supply at the site, and of course if there is not sufficient fill to cover the waste daily, for the life of the land fill, there is the purchase & transportation of such fill.

Then of course some of the cost will depend on the number of days that the site will be open, one day weekly or several days.

The costs for a town "going it alone" is almost prohibitive, and in every instance Metcalf and Eddy's recommendations have been a participation with one or more other towns, the number depending on the area. The more towns that use a single site, the shorter will be the liie of the location. The survey is now nearing completion. The next step for Holderness is for the town officials to study the results of the survey, and contact officials of one or more of its neighbors and see what can be worked out to the advantage of each town concerned.

Holderness has benefited from its membership in the Lakes Region Planning Commission in other ways also. As was mentioned in last year's Planning Board Report, more than half the land in Holderness, at least in recent years, has not been soil mapped, something that is very necessary if the town is to know the nature of its soil, and thus be governed as to its capacity for different uses, as growth and development takes place.

The cost for the completion of this soil mapping was about \$5,600, of which the Federal Government would pay one half, and the town would be required to pay half. The question then was where to find money to pay the town's half. The Holderness Conservation Commission obtained a grant of \$1,000 from the Ford Foundation, and made a gift of its own funds for a total of \$1,250, leaving the amount of \$1,550 to be obtained. The Revenue Sharing Funds, as a source of money supply, was mentioned, but the Town Fathers had already earmarked those funds for another purpose. An appeal was made to the Lakes Region Planning Commission for aid and advise, and they offered to supply the needed \$1,550. This is nearly \$500 more than Holderness' share contribution membership in the L. R. P. C. A contract was drawn up last September with the Soil Conservation Service at Woodsville, and work was begun shortly thereafter. A progress report made at a Planning Board meeting on February 7th, 1974 by Mr. Dannehy and Mr. Dollinger, both of the Soil Conservation Service, indicated that about half of the soil testing for the mapping had been completed when work was halted by "old man winter." The remainder will be cared for in the spring & early summer, and will probably be completed by late June, 1974.

A few weeks ago the engineering concern of DeLeuw Cather & Co. from their Boston office, sent a lengthy communication to the Planning Board stating that they had been hired by HUD in Washington to make a survey, and to obtain maps of Holderness showing, among other things its streets and their names, railroads if any, its rivers and streams with special reference to the extent of its flood plain. The maps were to be used by the Federal Government in its Federal Flood Insurance Program.

Once again, with the assistance of the staff of the Lakes Region Planning Commission, using data furnished by the U.S. Dept. of Agriculture Soil Conservation Service, the requested maps have been fabricated, given to the Holderness Planning Board Chairman, and are now enroute to the proper authorities for use in the Federal Flood Insurance Program.

These are but some of the attested examples of benefits derived by Holderness from its membership in the Lakes Region Planning Commission. Holderness' share for support of the L.R.P.C. for 1974 is \$1,076. It's a small fee in view of the benefits the town has and will derive from this expenditure.

Respectfully submitted  
Lawrence M. Staples, D.M.D.

Chairman Holderness Planning Board

## SECOND ANNUAL REPORT OF THE HOLDERNESS HEALTH OFFICER

There were 48 Permits issued for the construction of sewerage systems within the Town during 1973. There were 372 inspections of property completed of which 106 were complaints. There were 127 other miscellaneous contacts made, and 124 samples of drinking water tested due to the floods of July and December. 638 man hours worked, with 3,140 miles traveled.

The Holderness Septic Tank Ordinance Booklet has been completed and is now available at the Town Clerks Office or from the Health Officer.

A word about this past years' Budget and the proposed budget for 1974. Although the expenditures of this past year will exceed the appropriation, due to the floods, the 1974 operating Budget will be the same as last year. However, in the 1974 Budget there will be a request for a piece of equipment. The piece of equipment is a Coli-Count Water Tester and an Incubator. This is being requested because the Water Resources Research Center of the University of New Hampshire will not be funded this year as in the past two years.

Projects for 1974 are to continue some of the water testing that the above group was doing along our brooks and open water. To complete the work with the Selectman and the New Hampshire Water Supply and Pollution Control Commission regarding the establishment and construction of the Upper Holderness Village Sewerage District along the River Street area and Holderness Road.

A change in granting Sewerage Disposal Approvals from the State of New Hampshire. Beginning on March 1st. The N.H.W.S.P.C.C. will not accept applications from Holderness without a statement from the Health Officer showing the date and time that the test pit was inspected by him, and an approval granted based upon the finding.

### Recommendations

Organize the various Depts. within the Town so that there is a clear understanding as to the responsibility of each during an emergency such as the last two floods.

Review the flowage regulations of White Oak Pond and the requirements of the State of New Hampshire. Establish a level that will be enforced so that an extremely dangerous situation as last summer does not happen again to the residents living below the dam.

Respectfully submitted,  
Charles L. Currier  
Holderness Health Officer

SUMMARY OF FINDINGS AND RECOMMENDATIONS

Board of Selectmen  
Holderness, New Hampshire

Gentlemen:

Submitted herewith is the report of the annual examination and audit of the accounts of the Town of Holderness for the fiscal year ended December 31, 1973, which was made by this Division in accordance with the vote of the Town. Exhibits as hereafter listed are included as part of the report.

One of these audit reports must be given to the Town Clerk to be retained as part of the permanent records.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Free Library, Fire Department, Conservation Commission and Trustees of Trust Funds.

FINANCIAL STATEMENTS

General Fund:

Comparative Balance Sheets - December 31, 1972 and December 31, 1973:  
(Exhibit A-1)

Comparative Balance Sheets, as of December 31, 1972 and December 31, 1973 are presented in Exhibit A-1. As indicated therein, the Current Surplus decreased by \$8,682 from \$37,332 to \$28,650 during 1973.

Analysis of Change in Current Financial Condition: (Exhibit A-2)

An analysis of the change in current financial condition of the Town during the year is made in Exhibit A-2, with the factors which caused the change indicated therein. These were as follows:

Decrease in Current Surplus:

Surplus Used to Reduce Tax Rate                      \$25,000

Increase in Current Surplus:

Net Budget Surplus (Exhibit A-4)                      16,318

Net Decrease in Current Surplus                      \$8,682

---

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits A-3 and A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1973 are presented in Exhibits A-3 and A-4. As indicated by the Budget Summary (Exhibit A-4), a revenue surplus of \$12,366 and a net unexpended balance of appropriations of \$3,952 resulted in a net budget surplus of \$16,318.

Long Term Indebtedness:

Comparative Balance Sheets - December 31, 1972 and December 31, 1973: (Exhibit A-5)

Comparative Balance Sheets showing the outstanding long term indebtedness of the Town as of December 31, 1972 and December 31, 1973 are presented in Exhibit A-5. A statement showing annual debt service requirements (principal and interest) is contained in Exhibit A-6.

TREASURER

General Fund:

Classified Statement of Receipts and Expenditures: (Exhibit B-1)

A classified statement of receipts and expenditures for the fiscal year ended December 31, 1973 made up in accordance with the uniform classification of accounts, is included in Exhibit B-1.

AUDIT PROCEDURE

The accounts and records of all Town officials charged with the custody, receipts and disbursements of public funds were examined and audited in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

Verification of uncollected and unredeemed taxes was made by mailing notices to delinquent taxpayers as indicated by the Tax Collector's records. The amount of uncollected and unredeemed taxes as stated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

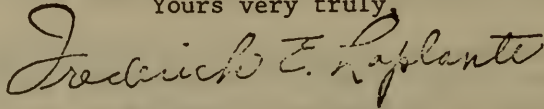

February 12, 1974

Conclusion:

The provisions of Chapter 71-a, Section 21, require that the auditors' summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town. Publication of the Exhibits contained in this audit report is optional at the discretion of the Board of Selectmen. This letter, however, must be published in its entirety.

We extend our thanks to the officials of the Town of Holderness for their assistance during the course of the audit.

Yours very truly,

A handwritten signature in cursive script, reading "Frederick E. Laplante".

TOWN OF HOLDERNESS

---

Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Town of Holderness for the fiscal year ended December 31, 1973.

Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of sources of revenues and expenditures present fairly the financial position of the Town of Holderness at December 31, 1973, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applicable to governmental entities, applied on a basis consistent with that of the preceding fiscal year.

Respectfully submitted,

Frederick E. Laplante  
Director

## MINUTES OF THE HOLDERNESS SCHOOL DISTRICT

MARCH 10, 1973

The meeting of the Holderness School District was called to order at 7:33 p. m. on March 10, 1973. Mr. Roberts opened with a silent prayer. He then read the warrant, which was to be taken up article by article.

Mr. Biddle moved and Mrs. Roberts seconded:

Article I: I move that we accept the salaries of the School Board, Truant officer and fix the compensation of any other officers or agents of the district.

The vote was in the affirmative.

Mrs. Ayer moved and Mr. Hayes seconded:

Article II: I move that the District accept the reports of the Auditors of the General fund, Treasurer, School Lunch Program, and the Agents of the School District as printed in the annual report.

The vote was in the affirmative.

Mrs. Elsner moved and Mr. Wolf seconded:

Article III: I move that the District appoint any agents, auditors, and committees in relation to any subject embraced in this warrant.

The vote was in the affirmative.

Mr. Brown moved and Mr. Dales seconded:

Article IV: I move that the District raise and appropriate the sum of \$320,869.00 for the support of schools, for the school district officials and agents, and for the payment of statutory obligations of the District and to authorize the application against said appropriations of such sums as are estimated to be received from State Foundation Aid, School Building Fund, Sweepstakes together with other revenue, the School Board to certify to the Selectmen the balance between estimated revenue and the appropriation, said balance to be raised by taxes by the town.

Part of the salary increase is for a special education teacher. What comes under special education, and how many need it? Mr. Eames said that the school had no program as it did not know what there would be to work with, teacher time or materials. There are 3 to 5 children with emotional difficulties. Also, other children who are above average, but are unable to learn in a classroom situation because of neurological difficulties. They would have to be diagnosed. Altogether there are approximately 20 children in need of help. Mr. Barlow said that the State says we must educate these children here, or at a special institution. It is better to spend the money now on special education to create self-sustaining members of society, than to have to spend more money later on when these individuals may be on the Welfare Rolls. The special education teacher would be shared with other schools. Another increase is for a gym teacher, also to be shared with another school.

The vote was in the affirmative.

Mr. Wolf moved and Dr. Staples seconded:

Article V: I move that the District vote to authorize the School Board to make application for, and to accept on behalf of the District, any or all grants or offers for educational purposes which now or hereafter may be forthcoming from the State of New Hampshire and/or the United States.

The vote was in the affirmative.

Mr. Gordon moved and Mr. Carvelli seconded:

Article VI: I move that the District establish a contingency fund to meet the costs of unanticipated expenses which may arise during the year, in an amount not to exceed \$250.00, all in accordance with RSA 198:4-b.

Mr. Brown amended and Mr. Dales seconded to add:

This \$250.00 to be the same \$250.00 voted under Account 1900 in the Holderness School District '73-74 Budget and included in the \$320,869.00 voted under Article 4 of the warrant.

The vote on the amendment and the motion were in the affirmative.

Mr. Noyes moved and Mr. Brown seconded:

Article VII: I move that the Town vote to rescind its 1970 vote whereby the District voted to elect the School District officers at the annual Town Meeting in accordance with RSA 197:1-A, and to elect the School District officers at the annual School District meeting, effective 1974.

The motion was voted down.

It was the consensus of opinion that the day of the annual school meeting could be changed to another day.

Mr. Brown moved and Mr. Roberts seconded the meeting be adjourned.  
Meeting adjourned at 9:30.

Respectfully submitted,

Ann Noyes  
School Clerk

## THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of Holderness qualified to vote in district affairs:

You are hereby notified to meet at the Holderness Central School in said district on the 9th day of March, 1974, at 7:30 o'clock in the afternoon, to act upon the following subjects:

1. To determine and appoint the salaries of the School Board and Truant officer, and fix the compensation of any other officers or agent of the district.

2. To hear the reports of Agents, Auditors, Committees or Officers chosen and pass any vote relating thereto.

3. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.

4. To see what sum of money the District will vote to raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the District and to authorize the application against said appropriation of such sums as are estimated to be received from State Foundation Aid, School Building Aid, Sweepstakes together with other income, the School Board to certify to the Selectmen the balance between estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

5. To see if the District will vote to authorize the School Board to make application for, to receive and spend in the name of the District such advances, grants-in-aid or other funds for educational purposes as may now or hereafter be forthcoming from Federal, State, local or private agencies.

6. To see if the District will establish a contingency fund to meet the costs of unanticipated expense which may arise during the year in an amount not to exceed two hundred fifty dollars (\$250), all in accordance with RSA 198: 4-b.

7. To see if the District will vote to approve the action of the School Board in accepting and expending funds from the Federal government to pay for flood damage caused to school property during the period of June 26-July 6, 1973.

8. To see if the District will vote to indemnify and save harmless any officer or employee for loss or damage arising out of any claim, demand, suit or judgment by reason of negligence or other act resulting in accidental injury to a person or accidental damage to or destruction of property while said officer or said employee is acting in his official capacity or employment pursuant to the provisions of New Hampshire RSA 31:105.

9. To transact any other business that may legally come before this meeting.  
Given under our hands at said Holderness this 14th day of February, 1974.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

This is my first report as your Superintendent of Schools. Officially I assumed my duties on July 1, 1973.

The State Tax Commission has recently notified all school districts they will be unable to perform school audits on 1972-73 business for at least one year. The School Board has authorized an audit by a private firm which will be performed as soon as possible.

The energy crisis has had a profound effect on many budget items. The lack of energy has caused a redesign of some school programs. It is evident we have several challenging years ahead, and from time to time we will be required to make adjustments in our plans.

There is still a good deal to accomplish in meeting the needs of the Holderness students; however, the school department has made giant steps in the past few years. Your continued support of the schools is necessary for each child to receive the best education possible.

Your school department has worked closely with the community when possible, and this relationship has been conducive to a better understanding of problems.

Respectfully submitted,

KENNETH SMITH

Superintendent of Schools

### EXPLANATION OF SUPERINTENDENT'S AND ASSISTANT SUPERINTENDENT'S SALARY FOR 1972-1973

Chapter 189, Section 48 Revised Statutes Annotated of the State of New Hampshire, requires that the school district annual report show the total amount paid to the Superintendent of Schools as per the following quotation: "Reports. Each superintendent of a supervisory union shall annually prepare a report of the total salary paid to the superintendent, showing in detail the amount paid by the state and each local school district, and their share of same. Said report shall be filed with the school board of each school district involved and shall be included in the annual report of the respective school district as a separate entry. A like report and entry shall be made for each assistant superintendent, teacher consultant, and business administrators, if any is in service in the union."

One-half of the supervisory union expenses is prorated among the several school districts of the union on the basis of adjusted valuations. One-half is prorated on the basis of average daily membership in the school for the previous school year ending June 30th. The salary of \$16,500 which was received by the Superintendent of Schools of Supervisory Union #48 during 1972-1973 was made up as follows: \$2,500 paid by the State of New Hampshire and \$14,000 was prorated among the school districts comprising the Supervisory Union. Allowance for \$400 travel within the Union was also prorated as stated above.

The salary of the Assistant Superintendent during 1972-1973 was made up as follows: \$2,190 paid by the State of New Hampshire and \$12,510 was prorated as stated above. Allowance for \$1,500 travel within the Union was also prorated as stated above.

The table below shows the portion of salary and travel charged to each school district.

	Adjusted Percent	Supt's. Salary	Supt's. Travel	Asst. Supt's. Salary	Asst. Supt's. Travel
Campton	14.57	\$ 2,039.80	\$ 58.28	\$ 1,822.71	\$ 218.55
<b>Holderness</b>	<b>18.48</b>	<b>2,587.20</b>	<b>73.92</b>	<b>2,311.84</b>	<b>277.20</b>
Plymouth	40.80	5,712.00	163.20	5,104.08	612.00
Rumney	9.94	1,391.60	39.76	1,243.49	149.10
Thornton	7.77	1,087.80	31.08	972.03	116.55
Waterville Valley	4.28	599.20	17.12	535.43	64.20
Wentworth	4.16	582.40	16.64	520.42	62.40
	100.00%	\$ 14,000.00	\$400.00	\$12,510.00	\$1,500.00

Kenneth Smith  
Superintendent of Schools

### ANNUAL REPORT OF THE PRINCIPAL

To the School Board, Superintendent of Schools, Parents and Citizens of Holderness, I respectfully submit my annual report.

We have five new faculty members this year. Mrs. Ellen Tapply replaced Mrs. Betty Homeyer as our first grade teacher in October. Mrs Tapply did her undergraduate and graduate work at Plymouth State College and has several years of teaching experience in Plymouth. Mr. Larry DiCenzo, a graduate of Plymouth State College, is teaching science and reading, having replaced Mr. Gary Russell. Mrs. Mary Smith is our learning disabilities specialist. She has had extensive teaching experience in New Jersey, Massachusetts, and New Hampshire. Her educational background includes a BEd. degree from Wheelock College and a MEd. degree from Paterson State. Mr. Larry Lord is our physical education specialist. He completed his undergraduate degree requirements at Plymouth State and completed his graduate program at Florida International University. Mr. Robert McCadam is responsible for our Industrial Arts program. His background includes a degree from Boston University, graduate courses at the University of New Hampshire and teaching experience in Rochester, New Hampshire and Plymouth. Dr. Walter Smith, professor of education at Plymouth State College, is devoting one morning per week from his busy schedule to our music program.

Returning staff members include Mrs. Judith Landry, Miss Linda Morse, Mrs. Sally Webb, Mrs. Sandell Morse, Miss Marilyn Barden, Mrs. Nancy Hogan, Mrs. Patricia Heinz, Mrs. Arline Bownes, Mrs. Mary Richards, and Mrs. Ruth Ann Blair.

Our very valuable support personnel include: Mrs. Frances Currier, our teacher aide; Mrs. Pat Giroux, our school secretary; Mr. Richard McCormack, head custodian; and Mr. Arthur Comeau, custodian. Mrs. Rose Carvelli, hot lunch manager, Mrs. Marjorie Hayes, cook, and Mrs. Norma Pike, cook, are again combining their talents to run a hot lunch program that is the finest in the area.

In my Principal's Report of last year, I discussed certain curricula goals that we had established for this year. A progress update on these is appropriate for this Year's report. Our first area of concern was our reading program. We decided to organize a nongraded, continuous progress reading curriculum into 21 levels for grades K-6. Last year we implemented the first sixteen levels and added the other five this year. This has made it possible for us to eliminate the artificial grade level barriers and allow each student to move through the system at a rate consistent with his individual ability. A second area of concern has been our mathematics program. We conducted a pilot program with a group of students last year as part of a study of our math needs. In addition, a committee of four faculty members studies several commercial programs throughout the year in an effort to select one that would assist us in developing a comprehensive program consistent with the instructional needs of our youngsters. Thus far we have been extremely pleased with the results of the decisions made last spring and early in this school year.

Our third area of concern was our learning disabilities program. We had documented a need for one and hoped to establish something on a Union basis. However, when that idea failed to materialize, we decided to organize one for our school. Accordingly, Mrs. Mary Smith was hired, and we worked out a program to be implemented in the fall. She has been working on a daily basis with several children (primarily our younger children in grades 1-4), who have learning difficulties. These are students who, for a variety of neurological reasons, are not making the academic progress we feel they should be able to. Our specialist has diagnosed pupils' difficulties by administering a battery of tests and identifying problem areas as pinpointed by the testing instruments. A program of remediation was prescribed for each child, and a group of paraprofessional tutors from our community has been trained to assist her in the time-consuming task of helping students overcome their difficulties. We are indeed indebted to the following volunteers: Mrs. Pat Farley, Mrs. Pat Giroux, Mrs. Arline Woodbridge, Mrs. Gail Wiltsie, and Mrs. Sue Dales.

A special note of thanks is also due to Mrs. Donna Hill, who has been doing volunteer library work, Mrs. Elizabeth Currier, who has donated her services to our language arts program, Mrs. Ann Noyes, who has been working in our mathematics program, Mrs. Barbara Cirincione and Mrs. Peggy Hendel in the third grade.

I would like to take this opportunity to express the sincere appreciation of the faculty and staff of Holderness Central School, to the parents and other citizens of our community who have continued their support of all we are doing to insure the intellectual, social, physical, and emotional development of our most important investment, the young people who will be tomorrow's responsible citizens.

Respectfully Submitted,

Robert C. Eames, Principal
